Nationally acclaimed! Consistently relevant and often irreverent!
Here’s what your season subscription package includes:

1. The Skin of Our Teeth – On the 65th anniversary of Thornton Wilder’s Pulitzer Prize-winning classic, the very underpinnings of American identity are challenged, as a typical American family struggles to survive an iceberg in suburbia, annihilation by coastal flooding, nuclear war and each other.
2. Pericles – To escape answering a riddle, Pericles sets out on a journey beset with storms, famine, a duel, the winning and loss of his wife, and the abandonment of his daughter. Add a few assassination attempts, pirates and a brothel . . . can honor and virtues survive?
3. The Physicists – Three mad physicists play a lethal game of developing weapons of mass destruction with the world at stake in this dark comedy by Swiss playwright and novelist Friedrich Dürrenmatt.
4. Tango -- A young man stages a revolution against his free-spirited parents so he can return the family to traditional values. But at what cost do clean linens and household order come?
5. danceALIVE! -- Under the direction of Liam Clancy, our internationally acclaimed faculty choreographs an exciting blend of dance, theatre, and interdisciplinary collaboration performed by our top students. The evening will lift and inspire you.
6. Surf Orpheus – Movement, music, and myth blend into a seamless dance theatre experience exploring the world of Southern California surf culture and the themes of fate, love and loss.
