April 14-24

**Baldwin New Play Festival**

**The Baldwin New Play Festival at UC San Diego 2010** features world premiere productions by our talented MFA playwrights - directed, acted, stage managed and designed by our nationally-acclaimed MFA companies. This year's plays take us from Rwanda to Santa Cruz, from the haunted mind of a teenage killer to the

mysterious fragments of memory that a mother grieving her lost son tries to piece together. The plays take on themes ranging from the legacy of slavery for one African-American family to what it means to be an American trying to do a good in a third world nation. They explore the complexity of finding justice in an imperfect world and the redemptive powers of making art. Filled with passion, insight, humor, and a dose of magic, these five plays represent some of the most original and ground-breaking new voices in American theatre. UCSD playwrights have gone on to be produced and commissioned around the country. New plays showcased at BNPF in recent years have had major productions and readings in New York City, San Francisco, Boston, Atlanta, Louisville, Minneapolis, Chicago, Washington D.C, and the O'Neill Playwrights Conference.
