**DIRECTOR’S NOTES**

Comedy of Errors is a play about how silly we are when we are unable to see and love the family that is right in front of us.

This corporate-inspired production invites us into a polarized world where international commerce is booming. A world where if you are a foreigner without “documentation”, you get in big trouble. Unless you are rich! If you have money, then that’s okay! A society where your worth is connected to your productivity, where to honor the sacrifices of your family, you work your ass off and neglect your family.

Ah, the Irony! Imagine a society where we take our partners for granted, where bosses can get away with abusing their workers, where capitalism is just an excuse for exploiting others, and the title “unpaid intern” still exists. Where people believe whatever feels convenient and demonize each other. A world ruled by money and reputation, where fear and ignorance allow us to justify violence and abuse... In 2024, where wars and borders are currently tearing families apart, this show feels deeply relevant.

We, humans, are prone to nonsense: This comedy highlights the absurdity of how naive we can be to what is right in front of us. Fear marries ignorance, leading to violence and abuse; Comedy of Errors reminds us that if we would only freaking slow down, we could realize we have family on the other “side.”

**DRAMATURG’S NOTES**

Shakespeare’s plays, though often called timeless, don’t always translate to the modern age. Though much of Comedy of Errors is a riot, filled with misunderstandings and slapstick comedy, it’s also a play that struggles to hold up under a modern lens, since much of its humor “punches down.” In
today’s world, comedy that targets and belittles the marginalized has fallen out of fashion—we’ve
learned that art doesn’t grow or evolve from reinforcing the status quo.

Yet we found this tale of mistaken identity brimming with opportunities to invert a broken dynamic.
Shifting focus from belittling women and “slaves” to questions of identity and assumption, we target
the systems and ideologies that cause these historic to modern problems.

Within the play, Antipholus and Dromio of Syracuse arrive on the shores of Ephesus, where, by law,
any Syracusan must be executed. Assumptions are made about them before they set foot in the city
due to their homeland, and more are imposed upon them once they arrive there due to their
resemblance to the twins who already live in the city.

We also find ourselves in a world driven by money; there’s a steep fine for a Syracusan to avoid death
in Ephesus, a city built on trade and overflowing with merchants. In short, the interplay between
injustices and capitalism is threaded into the fabric of this play.

The pieces are there, then, to ask: What if the humor of Comedy of Errors punched up instead of
down? By reaching into the text and pulling out the seeds of our familiar, late-stage capitalist world,
our production seeks to aim its blows and questions at oppressive systems and ideologies.

Money has the power to buy freedom, to buy life. We often place so much importance on our own
assumptions that we can’t hear otherwise; these things are true beyond the world of the play.
Through this production, we hope to prove that the choices we make and causes we uplift—both in
the rehearsal room and outside the theater—can be part of a greater shift from punching down to
punching up.

**Note From Director**

At its core, *Romeo and Juliet* is about a forbidden love that perseveres against the odds. As a queer director, this premise has always felt inherently queer to me. In this production, we have explored Romeo and Juliet as a queer love story by reimagining the characters of Romeo and Friar Laurence (now Priestess Laura) as women. Romeo is a teenage girl with a tomboy aesthetic who hangs out with the guys and who is just starting to come out. Priestess Laura is a revered herbalist, who, with the pride of an elder queer, delights in watching Romeo discover herself and tries to help when no one else will. And Juliet is a teenage girl whose unexpected romance with Romeo catches her even more by surprise. The rest of the play proceeds as written, with new meaning and new stakes.

In this production, the pressures of the intergenerational relationships come to the fore. Both Romeo and Juliet want to do right by their parents, but the entrenched beliefs of the older generation ring hollow for them. This feels especially relevant in our world right now as we live in a time of intense backlash against queer people, and especially against queer and trans kids. We’re in a time of parents who are banning queer books and demanding to know what pronouns their kids use at school; parents who, like the Capulets and the Montagues, are taking misguided action that they believe will protect their children, when in fact it will only put their kids more at risk.
In the end, I believe this is a play about hope. I don’t think I’ve ever experienced this play without knowing the ending, but I always find myself hoping that “this time” it will end differently. That is because Romeo and Juliet have such hope for their future - a hope for their love to be accepted, a hope for their life together to find a way. It is through this hope that Romeo and Juliet asks us to think of what could have been for these young lovers, and in doing so, exercises our muscle of imagining a new way forward in our lives.

**Dramaturg’s Note**

*Written By Haïa Bchiri*

Why do we keep doing this play? Why is it so often people’s first Shakespeare show? Why has it been adapted endlessly into the West Side Storys and Gnomeo and Juliets and ballets and Baz Lurhman extravaganzas? What’s in this play that keeps pulling us back to it?

Is it the nature of the tragedy, one in which the heroes’ fatal flaws aren’t the sort of hubris we’re used to seeing, the kings challenging the gods to stand in the way of their glory, untouchable mythic figures high on their own legends? Our heroes die from an excess of love, both love that we so want to believe will conquer all and love that drives people to hate. They die because they’re lovers: not schemers asking for more than their share, but teenagers pushed to fight for the people they care about.

Or maybe it’s the way family is portrayed. Generational trauma, burdens, conflicts. The way our families shape us and the feeling that we can’t fit their mold, no matter how much we contort ourselves. Loyalty and love even when you know they’re wrong, unshakable yearning to make them better because you believe they can be. What happens when the people who are supposed to have your back let you down, and what happens when they do have your
back but at much too high a cost. The family you’re born into, the family you marry into, the family you choose — it’s all there.

Perhaps that’s it, the friendships and support systems that emerge around the warring families, the people who could have stayed out of it but get invested and risk themselves because they care about a Capulet or a Montague. The people so close they can finish each other’s verses, they’ll help you fake your death or bring your banished girlfriend over to cheer you up. There’s so much love swirling about this show, romantic and platonic and familial.

Is it the love? Not just the love between the two leads, but all the other star-crossed characters and found families who populate this play. Romeo and Juliet, like many of Shakespeare’s works, is littered with queer stories barely hiding between the lines, the characters who are saying much more than they seem and the ones whose silence speaks volumes, not to mention the inherent queerness of the leading love story. Whether we come for the catharsis of a good cry or the romance of a sweeping sonnet, we can count on this play to pull at our heartstrings and show us a little of ourselves in there somewhere.

Whether it’s for the literally die-hard commitment to puns or the poetic imagery that’s so powerful lines of it have made it into the vernacular, for the fight scenes or the banter or the dramatic irony intense enough to make you want to call out to the characters to save them, Romeo and Juliet keeps coming back. It keeps pulling us back for more. To try it again and see what we can find. To discover it anew and showcase a different angle. To revel in all of the ways it lets us find ourselves within this “most excellent and lamentable” story of love, loss, fate, and hope.
